The News is a political paper with no party and a religious paper with no church. It crows for Richmond and California and don't care who knows it. If your constitution is robust, try it a month.

STRIKERS WIN HALF-HOLIDAY FIGHT

Federal Government Has Ordered That Saturday Afternoon Holiday Be Granted and All Shipyards Re-Open on Conditions Prevailing During War.

Pacific Coast shipyard workers yesterday won their fight for the Saturday half-holiday.

The federal government has ordered that the Saturday afternoon holiday be granted and that all shipyards on the coast be re-opened on conditions enjoyed by the workers during the war—which includes the Saturday half-holiday.

These conditions are to last until April 1, when a new agreement entered into by the workers, employers and the government, becomes effective.

This was the announcement yesterday of Geo. Ferguson, secretary of the Alameda-Contra Costa County Metal Trades Council, who received the information in a telegram from Washington Monday.

The order was given by Dr. Marshall, representing the Emergency Fleet Corporation, following a conference with officials of the Pacific Coast Metal Trades Council and representatives of international unions in Seattle a few days ago.

The telegram announcing the order was received by Ferguson from J. H. Powers, president of the Oakland Boilermakers' Union, who has been conferring in Washington with Chairman Macy of the federal wage adjustment board, and Louis J. Weyland, president of the international union.

Police in Search of New Machine

Search for a new mystery auto believed to be an important link in the murder of Miss Inez Elizabeth Reed was being pressed with the utmost secrecy yesterday by the San Francisco detectives, while others on the case were running down a clue which it is thought may lead to the apprehension of a San Francisco physician as the man who performed the illegal operation resulting in the nurse's death.

The hunt for the new automobile in the case, however, held the stage of interest. From the secrecy maintained over this new development, it was apparent that detectives on the case regard their clue as having the utmost importance.

Alvin Gerlach has opened up law offices at 1700 Spreckles building, San Francisco, and will be glad to see any and all of his Richmond friends any time they are in the city. He has been a lieutenant of the 347th Machine Gun Battalion for over a year past.

CHRISTIAN ENDEAVORS STAMPEDE THE SNAKES

Monday night a jolly party of Christian Endeavor young folks of the Presbyterian Church met at the residence of Mr. and Mrs. W. S. Poage and passed an enjoyable evening with games, music and refreshments. It was a St. Patrick's party and if any snakes had dared to show up they would have been promptly banished, probably with shillalahs. The guests wore Irish costumes, and none dared "tread on the tail of a coat."

Homer Patterson received first prize for the best Irish costume, and Mr. Baugh one a winner of the most games. Cedric Phillips entertained the company by impersonating a young lady soloist, and doing it well.

Green shamrocks of the Emerald Isle were plentiful, but, being true Presbyterians, narry a "drap of the crature" was supped, other than an innocuous punch a la Francis Willard, in honor, maybe, of the first name of the hostess' worse half.

Woman Probation Officer Wanted

Recommendations for an assistant probation officer, a woman, were made by the board of supervisors Monday morning following a conference between the board and a committee including Judge R. H. Latimer, Sheriff R. R. Veale and Probation Officer McMahon. The great need for this officer was emphasized to the board and the supervisors passed a resolution calling upon Senator Will R. Sharkey and Assemblyman W. E. Calahan to include this in the new county government bill.

PLANS CONSOLIDATION TWO SCHOOL DISTRICTS

A plan to consolidate the school districts of Richmond and San Pablo is being hatched at the office of County Superintendent of Schools W. H. Hanlon, according to word received from Martinez yesterday. Petitions for this consolidation are to be circulated, according to the report.

DEVELOPMENT PROMISED HERE

Prominent San Francisco Attorney Visits Richmond and Predicts Great Future for City—Makes Significant Survey of City's Industrial Sites Which May Mean Construction.

Intimation that Richmond is to be the scene of extensive industrial development backed by well-known capitalists of the bay district was given yesterday in an interview with A. G. Kayzebeer, prominent San Francisco attorney, with offices in the Mills building, who has just finished a survey of the city.

A man of state-wide prominence and noted as a corporation lawyer affiliated with big interests, Mr. Kayzebeer's presence here is said to portend much for the future development and growth of this city. After spending some time conferring with various citizens and looking over sites and tracts of land, Mr. Kayzebeer at the conclusion of his investigation predicted great things for this city in the near future.

"There is no doubt in my mind," said the prominent member of the bar, "but that Richmond has an outlook which can be envied by every city in the world."

Thermodynamic Growth.
"It's tremendous growth in the past few years has proven this, and despite the impediments caused by the war I understand that Richmond has a wonderful record."

"Patrick Henry once said, 'We have no way of judging the future but by the past.' Surely if Richmond's destiny is to be gauged by the spirit of the past, development here will progress at a rate that will be surprising."

"I am not at liberty to state, at this time, the object of my visit here, nor can I assure you that anything definite will come of the survey. I feel, however, that there are many opportunities of inestimable value which will soon be seized by discerning business men and capitalists."

COMMERCIAL BODY TO ELECT OFFICERS

Themeting tonight of the newly elected board of directors to choose officers of the Chamber of Commerce for the coming year will mark the opening of a campaign by the organization to interest every citizen of Richmond in the work being accomplished and that which is contemplated by the chamber. This announcement has been made by President C. E. Clark. When the officers are duly chosen the chamber will adopt the "budget" system of operation. This will involve the outlining of all the plans and moves of the chamber to the people in order that they may keep in close touch with the body. By this method, it is thought, a greater unity in public development can be obtained.

TOUR STANDARD OIL COMPANY'S YARDS

Thirty-five members of the chemistry and physics class of the Richmond High School attended a tour of the Standard Oil Company's yard yesterday morning under the direction of Miss Kinnear, instructor of mathematics and chemistry at the school.

Special attention was paid to the things which were coincidental with the work now being taken up by the students in these branches. Other trips of similar nature are being planned.

LEAVES FOR HOLLAND

MARTINEZ, March 18.—G. E. Van Senden, superintendent of the Shell Oil refinery, accompanied by Mrs. Van Senden, is en route East to take a ship to Holland. They expect to be away for three months.

Statists for the improvement of Richmond.

"This city cannot go ahead too fast to suit me. I have watched its growth for the past several years and have the utmost confidence in its ultimate development."

Mr. Kayzebeer, it is understood, is an advisory counsel for several new million dollar projects soon to be put under way in the bay district. Besides being a noted orator, much in demand on public occasions, he enjoys a state-wide reputation as an attorney.

CONVENTION AT MARTINEZ IN APRIL

Eighteenth Annual Conference of Women's Clubs of This District to Convene at Contra Costa Capital—Many Richmondites to Attend in Interest of Civic Development.

The eighteenth annual convention of the Alameda district, California Federation of Women's Clubs, will be held in Martinez April 8, 9 and 10, according to a call which was sent out yesterday to the presidents of all women's clubs in this district.

At the last district convention held in Richmond, the women of this city, prominent members of the Richmond Club, were one of the vital integral parts in the organization.

Through their efforts much was done in the way of civic development. As the call was only sent out yesterday no delegates have been appointed as yet. As Richmond is entitled to five or six delegates, however, it is expected that such prominent members of the Richmond Club as Mrs. Blake, Mrs. Wilson, Mrs. Gibson, Mrs. Smith and Mrs. Osborn will attend from this city.

To the presidents of all women's clubs of the Alameda district, California Federation of Women's Clubs, the following call is issued:

"The eighteenth annual convention of the Alameda district, California Federation of Women's Clubs, will be held in Martinez, April 8, 9, 10, by invitation of the Women's Improvement Club of Martinez."

All convention sessions will be held in the grammar school auditorium. The convention will be called to order at 10:30 Tuesday morning. The nominating committee will meet at the close of the first afternoon session and this committee will be glad to receive suggestions from all delegates in regard to candidates for the various offices, as it is the wish to provide the district

POWDER PLANT TO DO PEACE WORK

In a statement just issued, the Hercules Powder Company announces that it has set aside a substantial sum from its enormous war earnings to be used to develop experiments in turning the big extra units constructed for the war munitions into the making of goods outside the explosives needed for peace. Superintendent E. D. Armstrong of the Hercules plant is now touring the Orient.

In search of new fields to exploit for the company's plant in this vicinity and also to see if any ideas for this work can be secured in that section of the world. In detailing its war earnings, the company stated that the high water mark was reached in 1916, when the company netted \$16,800,000.

Richmond Man Sues for \$1,500 Damages

Suit for \$1,500 damages was filed in court at Martinez Monday by J. H. Unruh of Richmond against W. I. Laitenschlager. Unruh claims that he was knocked down at a street crossing by the defendant riding a bicycle and that he sustained injuries deserving of the above compensation.

Dropped in to look over George Lee's offices in the Pillow block yesterday, to see what the chances were of annexing six-bits of the Nicholl fortune, and found a man in there from San Francisco wanting to borrow \$100,000. Gosh! He didn't want much. If we had that much coin it is doubtful if we would speak to any of you common white folks at all.

CONTEST WILL CLOSE IN 4 DAYS

Prizes in Campaign to Be Awarded Saturday Night—Final Rules and Instructions Are Issued Today by This Paper's Contest Manager.

The News' big circulation contest has but four days more to go. On Saturday evening, the votes will be counted and the prizes awarded during the second how at the T. and D. theater. The list of standing of the candidates appears below and will appear again on Friday, which is the last count to be published.

In every campaign where there are a number of people competing and where there are rules to be observed, there is always someone who comes in at the last moment with the plea: "I did not understand; I thought I could do such and such a thing." Now this story is for the benefit of those who do not understand. One cannot be too careful, and, therefore, this article is addressed to all candidates:

1. The campaign will close promptly at 9 p. m. Saturday, March 23, and all subscriptions must be in the News office by that time.
2. The prize vote offer of a one million ballot to each of the four est amounts of subscription money since March 16 will close at 8 p. m. Friday, March 21.
3. Candidates must be present or have a representative present at the final count of votes on Saturday night, which will be held in the T. and D. Theater. However, a candidate may empower the cam-

A SPINELESS GOVERNOR.

And now we are informed by the dis-
patches from Sacramento that all this fine
talk about cutting down state expenses
is going to amount to nothing whatever,
presumably because the politicians and
job-holders have scared our spineless
grandmother of a governor into backing
up and quitting.

It is estimated by the various state of-
ficials that a saving of from \$500,000 to
\$750,000 could be made in salaries alone,
if the proposed merger of commissions
which overlapped each other and doubled
up uselessly, at terrible expense. But of
course the salaried job-holder does not
want to lose his soft snap of a job, and
as he has some friends and some political
pull, our jelly-fish of a chief executive
has done just what hundreds of others be-
fore him have done—laid down and yield-
ed to political pressure. The people be
damned, they can hold the bag. That is
what the people are for.

Rather than weaken his political ma-
chine, the governor has sacrificed princi-
ple and right. And sooner or later the
chicken will come home to roost.

COMPETENT TESTIMONY.

Ed Howe, many years editor and pub-
lisher of the Atchison Globe, which ob-
tained a national reputation because of
Howe's brilliant paragraphing, now pub-
lishes a monthly journal devoted exclu-
sively to his own writings. He is a life long
citizen of Kansas, extremely conservative,
and he offers the following opinion and
testimony relative to how prohibition has
worked out in the Sunflower state:

"Men often say to me: 'Of course I am
not opposed to temperance, but I object
to prohibition because it will lead to other
objectionable things.' I live in a prohibi-
tion state, and originally opposed prohibi-
tion as violently as anyone. After long ex-
perience with the policy, I favor it; I know
of no objection whatever to it. Whisky is
an evil as certainly as burglary; it will
benefit any community, state or nation, to
get rid of it. And we are practically rid of
it in Kansas. The people no longer discuss
the question; they get along without whis-
ky, and get along better than they did be-
fore. That's all there is to it."

The editor of the News can corroborate
that testimony. We lived in Kansas for
years, before and after it went dry and
know that it is just as Mr. Howe states.
The little children of those days are now
the grown men who are running affairs.
They never saw a saloon, and don't know
what the inside of one looks like, and
don't want to know. They never acquired
the habit of imbibing strong drink as we
older fellows did, and therefore they have
never been bothered with it. Take them as
a rule and they would no more think of
drinking whisky than they would of drink-
ing rat poison. They are happy, contented,
very prosperous, industrious, enjoy good
health and are a thousand times better
off than their fathers were before them.

And so it will be in any state or any
community. Our children of today will
grow up without the pernicious influence
of strong drink, and therefore will never
care for it or miss it, but will escape all
the baleful troubles, poverty, disgrace, ill
health, shame, crime, heartaches and head-
aches which we of today have known.

OUR BIGGEST PROBLEM.

The American Defense Society very
properly declares that the biggest prob-
lem confronting the United States is the
education of its aliens in the ideals and
standards of living and the duties and
privileges of citizenship. This society pro-
poses restricted immigration through edu-
cational tests, to the end that while the
dissemination of knowledge is making for
uplift among those already here, the en-
trance of others who lack preparation shall
not increase class unrest, largely due to
the presence of multitudes of unassimil-
ated persons.—San Francisco Chronicle.

The above is very true. If there be a
solution to the terrible problems confront-
ing the world today, that solution is ed-
ucation. Nothing but education can elimi-
nate the evils of ignorance, and what the
world is suffering from today are the
evils of ignorance. Simmer it all down and
that is just what it amounts to, and the
answer is education.

This generation cannot be educated very
much, but the rising generation can be
and will be, and they will then know more
and be better men and women, and better
citizens.

Restricted immigration and compulsory
education will work wonders, here and
everywhere.

2-PLATOON SYSTEM GAINING EVERYWHERE

Saskatoon, Canada, must now be added to the cities of the United States and the Dominion in which the two-platoon system has been established by law in the fire department. The other Canadian cities having the two-platoon system are Vancouver, Hamilton, South Vancouver, Montreal, Toronto and Victoria, in all of which it has gone into effect during the past six months.

Every day the news columns of the papers are telling of some progressive city which has put in the two-platoon system for fire protection. Why has not Richmond done that long ago? And why does it not do it now? If anybody knows the News would like the information. If a fire should break out here some day that was a real fire, and it happened to be at an hour when perhaps only one man was on shift at a fire house, the town would burn down before we would know it. That is a very dangerous and expensive risk to run.

Virtuous Wives At The Richmond

Local feminine patrons of motion pictures will have an opportunity, at the Richmond Theater, to acquaint themselves with the most recent war-time styles in women's apparel by studying the multitude of finery worn by the star and principal actresses in "Virtuous Wives," the screen adaptation of Owen Johnson's celebrated novel, in which Miss Anita Stewart returns to stardom after a long period away from the camera.

"Virtuous Wives" is a story of married life in New York society, and as such it had to be accurately and lavishly "dressed." Miss Stewart, in the role of Amy Forrester, wears eleven different dresses and suits in the changing scenes of the story. Mrs. DeWolf Hopper, who will be seen as Mrs. Irma Delabarre, was obliged to provide herself with nine new gowns and frocks to keep pace with the demands of George Loane Tucker, director of Miss Stewart, for the proper costuming of the women principals who play the part of social personages.

LUCKY TO BE IN BED
You who can go to bed and sleep when the proper time comes don't know how lucky and well off you are. Take it from us that a poor journalistic hack that has to trail all around town at all hours of the night would greatly appreciate such a luxury. When the winds blow cold off the ocean and howl around the corners, and the rain is beating down on the window glass and the shingles, to "snooze" under the blankets, listen to the gale outside and the croaking of the frogs a while, and then drift softly off into dreamland—oh, boy! Some comfort, that.

ST. PATRICK'S DINNER
The ladies of the Wesley M. E. Church gave a St. Patrick's dinner in the church basement last evening, and did a good big business. The head scribe of this great family journal dropped in a moment, and caught Rev. Irons "peeling a billed prate wld his thumb nail" and remarking that he hailed from Limerick, where potatoes cost nothing and buttermilk half that price. It was a bluff. He is no Irishman, because he won't drink whisky.

The ladies fed about 170 hungry people and fed them well, as they always do.

We wish to call your attention to an advertisement in another part of this paper referring to a "Free" Vit-O-Net treatment. It is up to you, dear public, to take advantage of that offer, as we will soon discontinue it, owing to the fact that our business has grown (in only two weeks) to such magnitude that it will be unnecessary to advertise the Vit-O-Net treatments that way.

Come in and find out for yourself just what the Vit-O-Net will do and hear what others have to say about it.

**ARIZONA MAY BE
MOVIELESS SOON**
LOS ANGELES, March 18.—Arizona, source of the movie cowboys, may be the first "movieless" state.

That's what the film exchange board of trade announced here today. The distributors declare a new Arizona law before Governor Campbell for signature would require every company distributing films in Arizona to maintain branch offices in the state and meet other conditions which the movie men consider impossible.

The announcement said that if the law becomes effective no more films will be sent to Arizona.

"WELCOME HOME" CELEBRATION POSTPONED

General J. J. Borree, chairman of the state committee on readjustment, has transmitted to Governor William D. Stephens, following resolution of the state committee:

That the state committee hereby requests Governor William D. Stephens to postpone the "welcome home" celebration until such time as California service men shall have returned and until such a date when the possibility of having rain shall have ceased, suggesting either July 4 or Sept. 9 as an acceptable date.

To which Governor Stephens replied as follows:
If, in the judgment of the state readjustment committee, a later date than April 5 would enable all California to give a surer, warmer welcome to a much greater number of California's returning soldiers, sailors and marines, then the day for the welcome home celebration should be changed. Your committee is authorized to act.

The date originally contemplated, when the idea of a state-wide celebration was inaugurated by the State Council of Defense, was April 5, but it is now realized that not sufficient men will have returned to their home communities to make the celebration as representative as it should be.

SLEEPING SICKNESS REPORTED SPREADING

NEW YORK, March 18.—Cases of sleeping sickness, the new malady, which is believed to be an aftermath of influenza, are scattered daily over the country, but not in alarming numbers, according to figures gathered today.

Twenty-one deaths have occurred. More than one hundred actual cases have been listed in seventeen cities, but there are believed to be many as yet unreported.

Cleveland and Springfield, Ill., each reported 25 cases. New York has 40. Chicago's number is unknown, the health authorities not making it public.

In this disease, the sufferer lapses into a state of coma. In many instances recovery is complete. Some have been known to sleep from eight to ten days and then "come to life" in good health.

UNIONS VISITED RODEO, March 18.—Members of the Oil and Gas Workers' Union of this city visited Martinez last night and took part in a big meeting of unions with the workers of that city.

THE DOUGHBOYS HELD THEIR GROUND

From the moment that American commanders said "Retreat—hell, we just got here!" in answer to the importunities of the hard-pressed French, the American doughboys held every inch of ground they took. They are now holding ground in Germany. It cost them flesh and blood, comrades dead and wounded, to win and hold their ground. It is costing them the rigors of army life and the opportunity of getting back to paying jobs to hold the German soil where they are now.

Are you holding your Liberty Bonds? Or, are you giving up hard won terrain to the enemy?
The boys over there can't retreat. They have to stick. They will go farther into Germany, probably. They can't say the war is over and give up.

The least any American can do is to hold his Liberty Bonds—hold them out of respect for the men still under arms if for no other reason. When you sell a Liberty Bond or trade it for some stock, worthless or otherwise, you are retreating.

That American commander who said, "Retreat—hell, we just got here!" was American flesh and bone. Are you? Then hold your bonds. Put them in the bank. Borrow on them if you have to. But hold them.

THRIFT MEANS

1. Planning—taking into consideration the needs of yourself, your family, and your country, not only for the present but also for the future.
2. Spending wisely to meet important present needs—getting the most for your money today and having something left for the morrow.

3. Investing the savings—the part which the thrifty spend to satisfy trifling or unimportant wants—so that you may greet with happy countenance all important future needs and opportunities that knock at your door.

War Savings Stamps hold your money for opportunity's call.

War Savings Stamps begot thrift. Thrift begot success.

Labor Heads Discuss Bolshevism At Fresno

FRESNO, March 18.—There is great cause of restlessness and uprising among the working classes of the world, said Olaf A. Tveitmo, secretary-treasurer of the State Building Trades Council, in his report read here today before the annual convention of the organization, which is holding a three-day session.

"It will depend largely upon the reaction of the employing classes; if that is light, the uprising will be correspondingly diminished. If it is heavy, it may amount to small-sized revolutions," said Tveitmo.

Bolshevism Taint
In describing conditions in Russia, he said, there is some cause for the Bolshevism and there may be a small faction of the tolling classes in this country who are tainted with it, "but the overwhelming majority of the American working people detest the least thought of it."

Saying that the easiest way to eradicate "Bolshevism and I. W. W.ism," was to furnish the workers food, Tveitmo continued:

"It is we to preserve and progress on our line of civilization the men and women who toil must be taken care of. They must have sufficient food and clothing to protect them against hunger and cold."
